

ASSURANCE STATEMENT

SGS TAIWAN LTD.'S REPORT ON SUSTAINABILITY ACTIVITIES IN THE BENQ MATERIALS CORPORATION'S CORPORATE SUSTAINABILITY REPORT FOR 2024

NATURE AND SCOPE OF THE ASSURANCE

SGS Taiwan Ltd. (hereinafter referred to as SGS) was commissioned by BenQ Materials Corporation (hereinafter referred to as BenQ Materials) to conduct an independent assurance of the Corporate Sustainability Report for 2024 (hereinafter referred to as the Report). The assurance is based on the SGS Sustainability Report Assurance methodology and AA1000 Assurance Standardv3 Type 1 Moderate level during 2025/04/01 to 2025/05/29. The boundary of this report includes BenQ Materials Taiwan and China operational and production sites. It is not the same as BenQ Materials' consolidated financial statements.

SGS reserves the right to update the assurance statement from time to time depending on the level of report content discrepancy of the published version from the agreed standards requirements.

INTENDED USERS OF THIS ASSURANCE STATEMENT

This Assurance Statement is provided with the intention of informing all BenQ Materials' Stakeholders.

RESPONSIBILITIES

The sustainability information in the BenQ Materials' Corporate Sustainability Report of 2024 and its presentation are the responsibility of the directors or governing body and management of BenQ Materials.

SGS has not been involved in the preparation of any of the material included in the Report.

Our responsibility is to express an opinion on the text, data, graphs and statements within the scope of assurance based upon sufficient and appropriate objective evidence.

ASSURANCE STANDARDS, TYPE AND LEVEL OF ASSURANCE

The assurance of this report has been conducted according to the AA1000 Assurance Standard (AA1000AS v3), a standard used globally to provide assurance on sustainability-related information across organizations of all types, including the evaluation of the nature and extent to which an organization adheres to the AccountAbility Principles (AA1000AP,2018).

Assurance has been conducted at a type 1 moderate level of scrutiny.

SCOPE OF ASSURANCE AND REPORTING CRITERIA

The scope of the assurance included evaluation of quality, accuracy and reliability of specified performance information as detailed below and evaluation of adherence to the following reporting criteria:

Select specific reporting criteria included in the contract

Reporting Criteria Options	
1	AA1000 Accountability Principles (2018)
2	GRI (In Accordance with)

- AA1000 Assurance Standard v3 Type 1 evaluation of the report content and supporting management systems against the AA1000 Accountability Principles (2018) is conducted at a moderate level of scrutiny, and therefore the reliability and quality of specified sustainability performance information is excluded.

ASSURANCE METHODOLOGY

The assurance comprised a combination of desktop research, interviews with relevant employees, superintendents, ESG Sustainability Committee members and the senior management in Taiwan; documentation and record review and validation with external bodies and stakeholders where relevant.

LIMITATIONS

Financial data drawn directly from independently audited financial accounts, Task Force on Climate-related Financial Disclosures (TCFD) and SASB related disclosures has not been checked back to source as part of this assurance process.

INDEPENDENCE AND COMPETENCE

The SGS Group of companies is the world leader in inspection, testing and verification, operating in more than 140 countries and providing services including management systems and service certification; quality, environmental, social and ethical auditing and training; environmental, social and sustainability report assurance. SGS affirm our independence from BenQ Materials, being free from bias and conflicts of interest with the organisation, its subsidiaries and stakeholders.

The assurance team was assembled based on their knowledge, experience and qualifications for this assignment, and comprised auditors registered with professional qualifications such as ISO 26000, ISO 20121, ISO 50001, RBA, QMS, EMS, SMS, GPMS, CFP, WFP, GHG Verification and GHG Validation Lead Auditors and experience on the SRA Assurance service provisions.

FINDINGS AND CONCLUSIONS

ASSURANCE OPINION

On the basis of the methodology described and the assurance work performed, we are satisfied that the specified performance information included in the scope of assurance is accurate, reliable, has been fairly stated and has been prepared, in all material respects, in accordance with the AA1000 AccountAbility Principles (2018).

We believe that the organisation has chosen an appropriate level of assurance for this stage in their reporting.

ADHERENCE TO AA1000 ACCOUNTABILITY PRINCIPLES (2018)

INCLUSIVITY

BenQ Materials has demonstrated a strong commitment to stakeholder inclusivity and engagement. The organization has effectively integrated stakeholder engagement processes into its governance, strategy, and decision-making frameworks, ensuring involvement from senior management, cross-functional teams, and diverse geographical regions. Through various engagement initiatives, including surveys and communications with employees, customers, investors, suppliers, CSR experts, and other stakeholders, BenQ Materials fosters a comprehensive understanding of stakeholder concerns.

MATERIALITY

BenQ Materials has established and integrated a multifaceted methodology, incorporating monetization processes, to identify the organization's material issues. It has developed an impact-based materiality analysis process and established corresponding sustainability objectives. This report appropriately addresses the identified issues based on their materiality and priority.

RESPONSIVENESS

BenQ Materials has adequately demonstrated responsiveness towards the material topics and their impacts that were identified through the review process. The report includes coverage given to stakeholder engagement and channels for stakeholder feedback.

IMPACT

BenQ Materials has demonstrated a process on identifying impacts that fairly encompass a range of environmental, social and governance topics from wide range of sources, such as activities, policies, programs, decisions and products and services, as well as any related performance. Impacts related to material topics were in place at target setting with qualitative and quantitative measurements and evaluation.

ADHERENCE TO GRI

The report, BenQ Materials' Corporate Sustainability Report of 2024, is reporting in accordance with the GRI Universal Standards 2021. The significant impacts were assessed and disclosed in accordance with the guidance defined in GRI 3: Material Topic 2021 and the relevant 200/300/400 series Topic Standard related to the material topics claimed in the GRI content index. The report has properly disclosed information related to BenQ Materials' contributions to sustainability development. In the future, progressively adopting systematic data collection and integration with IFRS standards can further enhance alignment with the expectations of investors and other stakeholders.
